

Coaching and guidance in drafting proposals is available at no cost through NJSBDC.

In addition, **cost shared proposal preparation assistance** is available through NJSBDC's partnership with the NJ Commission on Science and Technology. These services consist of written critiques of draft proposals and help in strengthening them. Up to 12 hours of assistance is available at a rate of \$20 per hour, with NJCST covering the rest of the cost. Written critiques are presently limited to NJ based small businesses located outside the NJ Business Incubation Network.

Assistance can be requested by sending an E-mail message to rgharmon@njsbdc.com or by calling 973-353-1923.
